

GCSE Mathematics

1 Year course

Equivalent to 1 GCSE A* - G

This course is designed to provide students with an understanding of mathematics and the opportunity to acquire a valuable qualification usually requested by employers.

The aims of this specification are to encourage students to:

- Develop a positive attitude to Mathematics
- Consolidate basic skills and meet appropriately challenging work
- Apply mathematical knowledge and understanding to solve problems
- Think and communicate mathematically, precisely, logically and creatively
- Appreciate the place and use of Mathematics in society
- Apply mathematical concepts to situations arising in their own lives
- Understand the interdependence of different branches of Mathematics
- Acquire the skills needed to use technology such as calculators and computers effectively
- Acquire a firm foundation for further study

Industries that especially value mathematics include: Finance, ICT, Engineering, Science, Statistics, Education and many more

“Mathematics is challenging but very rewarding. It will help you in the future. Try your best and good grades will come your way. It can be difficult at times but the teachers are very helpful and will help if you are struggling”
